Design Tools: Figma, Illustrator, Photoshop, Lottie

D r e a m j o b

Project description: This is a recruitment project. The project includes website design for candidates, employees, and employers

Team size: 13

- Responsibilities:**
- Gather and evaluate client requirements.
 - Analyze user needs and research experience with BA
 - Design system: Style guide, components...
 - Design user interface from wireframe of BA.
 - Support developers to test UI

Design Tools: Figma, Illustrator, Photoshop

U 2 P C

Project description:	Application for Admin management. They'll manage gamers playing with remote pc on this app
Team size:	6
Responsibilities:	• Gather and evaluate client requirements. • Analyze user needs and research experience • Design system: Style guide, components... • Design sitemap, wireframe, user flows. • Design user interface and prototype. • Support developers to test UI
Design Tools:	Figma, Illustrator

Carrier Smart

Project description:	Carrier Smart will connect refrigeration electrician with customer to know service information, price, the way to pay (cash or credit card) ...
Team size:	5
Responsibilities:	• Gather and evaluate client requirements. • Analyze user needs and research experience • Create Personas, Sitemap and User Flow • Design Hi-fi wireframe • Build design system: Style guide, components... • Design user interface from wireframe of BA. • Make prototype • Collect and synthesize user feedback to improve user experience
Design Tools:	Figma, Illustrator, After Effect

Cloud U2 website

Project description:	Website for introducing company and advertising game to customer
Team size:	12
Responsibilities:	• Research similar product in the market. • Design user interface and prototype. • Design system: Style guide, components... • Design banners. • Export and edit HTML, CSS code to support developers.
Design Tools:	Figma, Illustrator, After Effect

Worri mall website

Project description: Website for introducing and selling products. Customer can buy and pay on web

Team size: 9

- Responsibilities:**
- Work collaboratively with BA, developers to define and ideate for product.
 - Research similar product in the market.
 - Design sitemap, wireframe, user flows.
 - Design system: Style guide, components...
 - Design banners, poster, ...
 - Export and edit HTML, CSS code to support developers

Design Tools: Figma, Illustrator, Photoshop, Visual Studio Code

Remote PC

Project description: This app connects laptop or pc of user at home with pc of internet cafe

Team size: 6

- Responsibilities:**
- Gather and evaluate client requirements.
 - Analyze user needs and research experience with BA
 - Design sitemap, wireframe, user flows.
 - Design system: Style guide, components...
 - Design user interface and prototype.
 - Design gif.
 - Support developers to test UI

Design Tools: Figma, Illustrator, Photoshop, After Effect

MB Laos bank

Project description: Mobile banking apps are now offering advanced features like expense tracking, digital wallet integration, and increased financial security and transparency

Team size: 16

- Responsibilities:**
- Gather and evaluate client requirements.
 - Analyze user needs and research experience with BA
 - Design system: Style guide, components...
 - Design user interface from wireframe of BA.
 - Make prototype

Design Tools: Figma, Illustrator, After Effect
